Meet the Speaker

Sue Sternberg

Sue has over 35 years of dog behavior experience, including as a dog control officer, kennel and animal care technician at various shelters, dog trainer, behavior counselor, instructor, temperament evaluator, boarding kennel owner, veterinary assistant, is a successful competitor in a variety of dog sports, and a teacher of dog trainers. In 1993 she started her own shelter in upstate New York and has created national shelter programs to improve the lives of shelter dogs. Sue has two main goals in life: to make the shelter dog world a better place and to make public dog parks safer and more fun for dogs who must use them. To do this, Sue travels and educates people on canine communication, body language and behavior.

She is the author of Successful Dog Adoption (Howell Book House) and numerous other books--most recently How Old is This Dog? They can all be found at Dogwise.com. Sue has produced many DVDs on dog behavior and aggression, and also has an iPhone app, The Dog Park Assistant, which is a video repository of dog play and aggressive behaviors, to ensure that when dogs get together they are truly having fun and not going to hurt each other. Sue has two wonderful, adopted heeler mixes. In 2013, Sue was introduced to the sport of K9 Nose Work®. Sue and both her dogs have been completely obsessed, out of control and intoxicated with it ever since.

Sue is also an accomplished fiddle player, an amateur paleontologist, loves Earl Grey tea, and is a major Star Trek fan.
